Technology in
Harmony**

Museum Nogueira da Silva's garden

Identify 4 geometric
solids:

*Solids: prisms-pyramids-spheres
-cylinders...*

The Museum has a French-inspired garden, with flower beds surrounded by boxwood, crowned by magnolias surrounding a baroque fountain, various ceramic works, blue and white tile panels and sculptures.

Jardim de Santa Bárbara is one of the most beautiful gardens in Braga. It balances the rules of geometry with the randomness of colors from flowers, vegetation and birds.

S.ta Bárbara's garden
