

Visiting to Déri Museum

Our class makes a trip in every year. In this year we decided to go to Debrecen.

Debrecen is a big city in Hajdú-Bihar county. Before we went to the trip, we have to organize the journey.

First of all we chose the way we travel. The most comfortable is travelling by bus, so my head teacher phoned some contractor and asked them how much the journey cost if 20 students and 5 adults stay on the bus. The best price was 5000 huf/person.

After that we chose the day of the journey.

The most important thing was the programe! All of the students wanted to go to the Déri Museum.

Our head teacher looked after on the internet the Déri Museum. The link is the next: <https://www.derimuzeum.hu/index.php?&nyelv=hu> The museum is in the heart of the city.

The entrance ticket cost 900 huf/student, 1800huf/adult and we asked warehouse management which cost 5000 huf/class.

The women, who show around the museum was really kind and told us a lot of interesting story about the exhibition things. It was amazing!!!

When we arrived in a big room and saw the trilogy of Munkácsy, we shocked! Mihály

Munkácsy was a famous painter. That were fantastic! There was three huge pictures. All of them was perfect!

After that we walked in another room, which was full of beautiful minerals. This room called Wonderchamber. We could see green, yellow, purple and so on minerals.

The trip in the museum was really interesting and unforgettable!

The journey with all cost 157000 huf and we distributed the expense and it was 6280 huf/person.

That was an amazing day!
